If you are a young person looking for your next steps in life, Generation UK & Ireland gives you the skills you need and connect you with employers to find a job.

If you're a young adult facing barriers to employment, they will help you build a thriving, sustainable career.

What they do:

- Create bespoke 3 to 12 week programmes to train you in the technical skills and confidence to be successful in these roles.
- Work with employers to reserve vacancies for their programme graduates and connect you to real job interviews once you graduate.

What they Offer

- Programmes are always free
- No experience or qualifications required
- Expert instructors with industry experience
- 1:1 mentoring during and for 6 months post-programme
- Training in technical and employability skills
- Learners continue to receive work related benefits during the programme
