

Taken from <https://www.studyhigher.ac.uk/disabled-learners/> for educational use only.

Study Highers **Accessibility in higher education** booklet is now available.

They have created this booklet, and information page on their website, to accompany a webinar about accessing higher education as a student with disabilities.

The booklet includes a checklist of questions that disabled learners can ask and/or research when they are thinking about applying to university or college. The recording of the webinar is also available on their website.
